

# Welsh children's social care data: from acquisition to use

Lucy Griffiths and Alex Lee

Population Data Science, Swansea University

10<sup>th</sup> December 2020

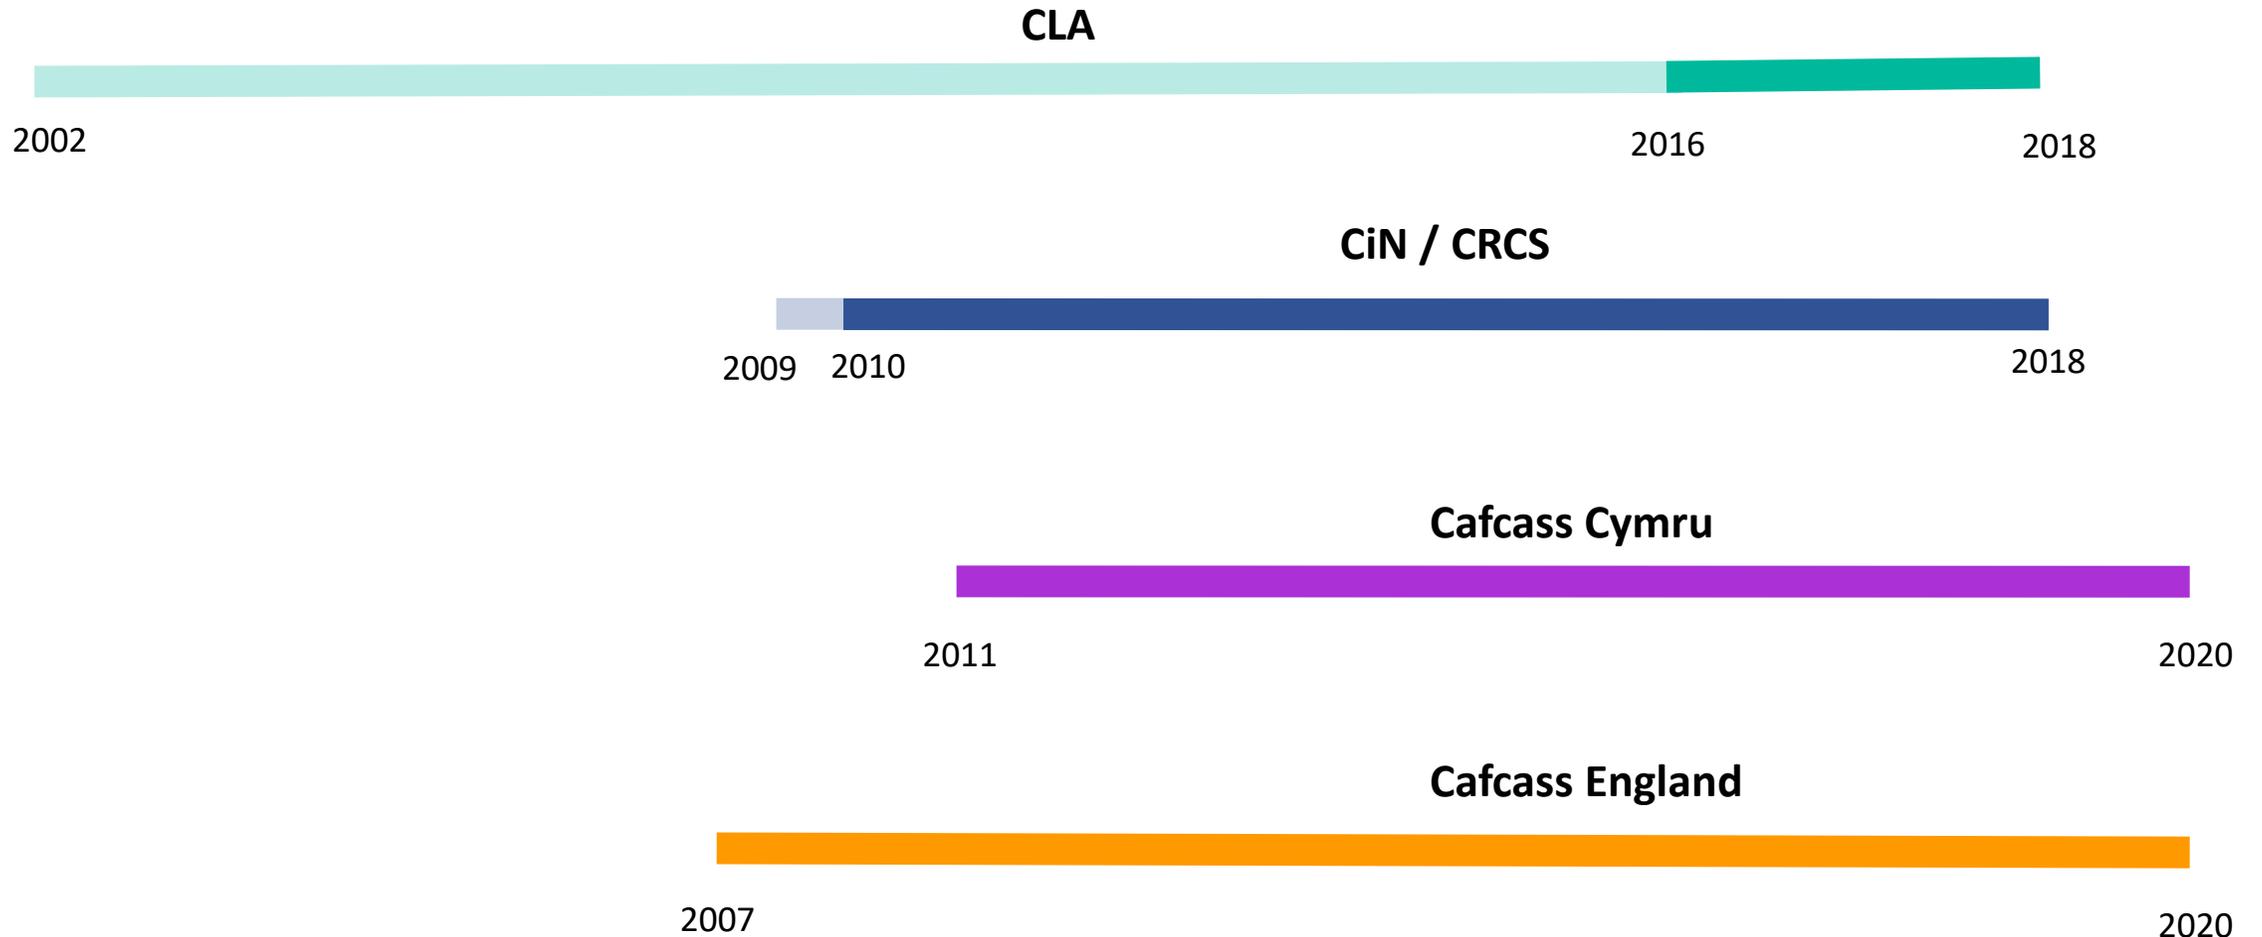

# The Secure Anonymised Information Linkage (SAIL) Databank

What is SAIL Databank?

‘Containing billions of person-based records, SAIL Databank is a rich and trusted population databank. It improves lives by providing researchers with secure, linkable and anonymised data that can be accessed and analysed from anywhere in the world.’

# Data and time ranges

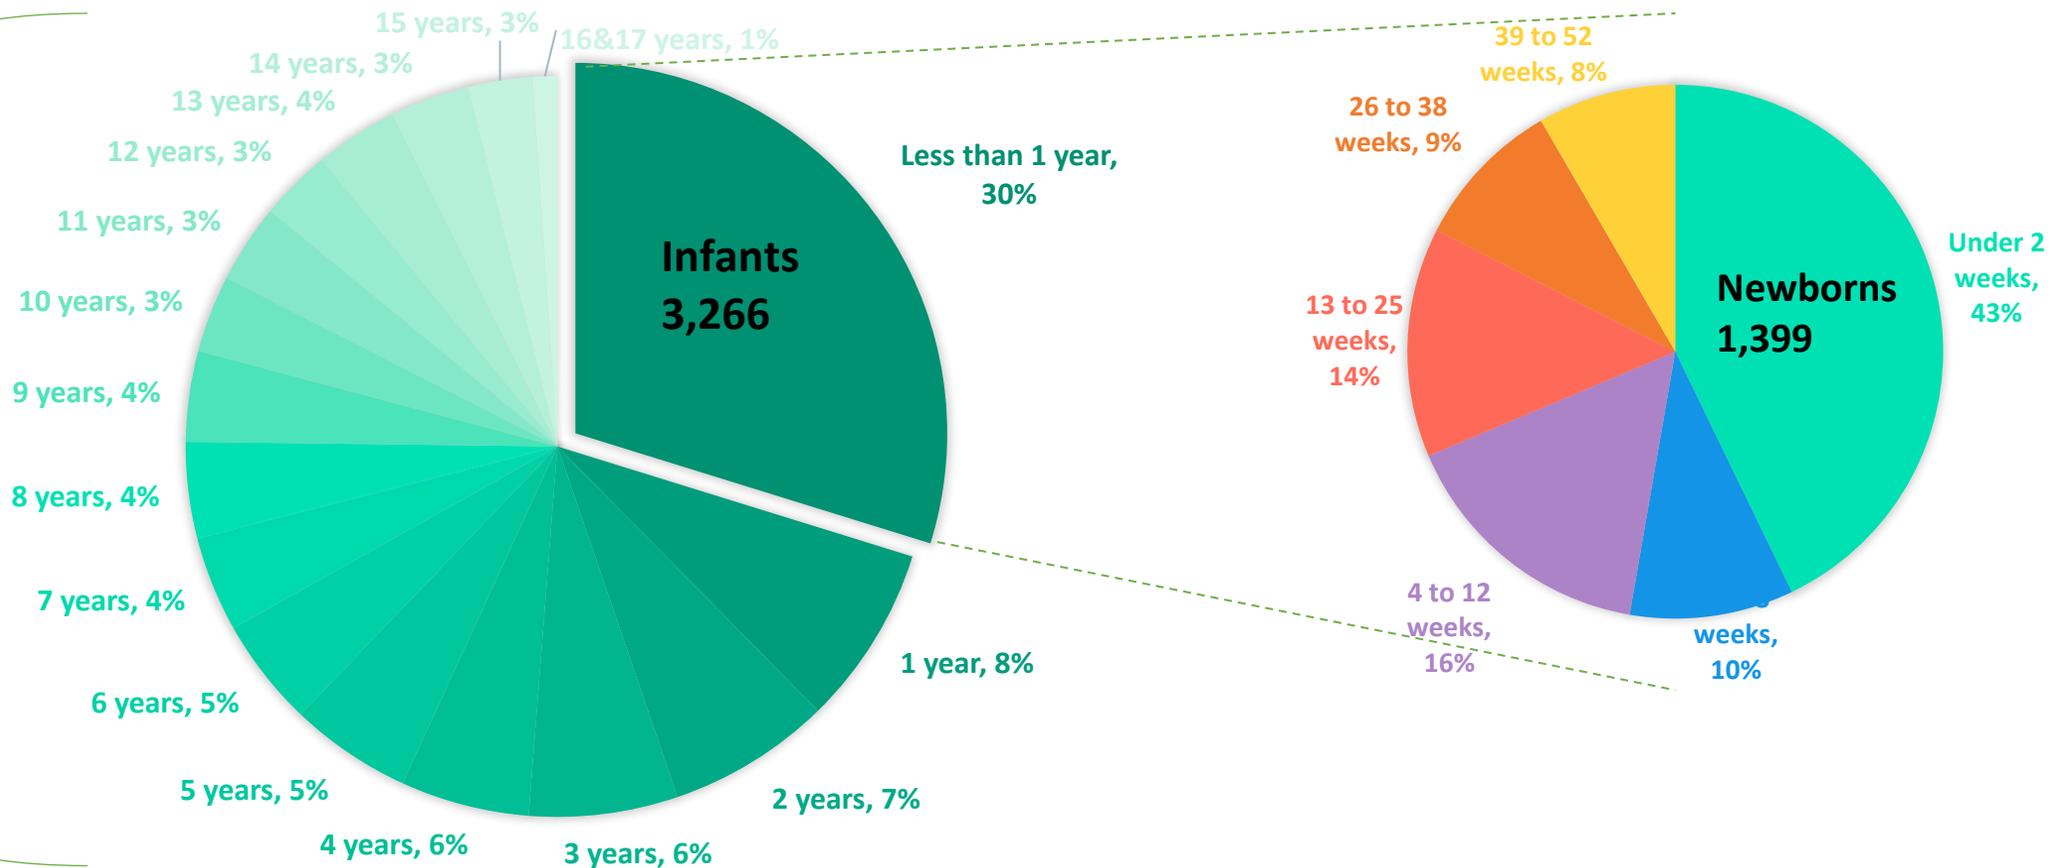

# The Family Justice Data Partnership

- Increasing capacity and capability of researchers and data scientists utilising family justice and other relevant administrative datasets;
- Improving understanding about the family justice system in England and Wales;
- Demonstrating the value of data linkage; and
- Assisting future policy and practice development.

# Children in care proceedings in Wales [2011 to 2018]

10,959 children

Slides presented containing preliminary findings from use of new children's social care data have been removed. They will be published early 2020 in a forthcoming Nuffield Family Justice Observatory Report.

# Next steps

- Improving data quality
- Linkage to health and education data
- Understanding pathways into and beyond the family justice system
